MATEO —
VINCENT VAN DUYSEN 2023

The Mateo table, designed by Vincent Van Duysen, introduces fresh possibilities in 2024. Featuring a characteristic central base with a conical shape, vertically grooved at the base, this table is enriched with new compositional options. Available in both dining and lounge versions, the Mateo table offers a range of sizes to accommodate various settings. The dining version includes round tops in sizes 140, 160, 180, and 200 cm, as well as oval tops in 220 and 250 cm, supplemented by a new version with two bases and oval top in marble in 300, 350 and 400 cm version, perfect for larger spaces and social gatherings. The distinctive conical base is now offered with a polished steel finish, in addition to classic options such as coffee oak, sunrise oak, glossy lacquers, and burnished metal. Van Duysen explained, “In constructing the central pedestal, I drew inspiration from the solidity of a company and its 90-year history—deeply anchored roots upon which the leap into the future rests.” Representing a modern approach to dining, this table boasts scalable proportions and sleek lines, designed to elevate the art of entertaining.
